Garage Sale Tips

- Beware when you open your garage door! Garage sale enthusiasts have been known to camp out at the crack of dawn- especially if you have something listed that they are interested in.
- Have a cash box with \$40-\$50 in small bills for change when you open. It is usually a good idea to have only 1-2 people in charge of handling cash.
- Put your best items out in the driveway. This will draw customers to your sale.
- Price realistically. Price items at 10%-20% of the retail price. If the items are new or unused and still in the original packaging you can go higher, but it should still be 50% off retail price.
- Expect haggling. Don't be insulted if a customer wants to work out a deal for a reduced price or for a group item discount. Many shoppers love to do this and it is a big part of garage sale dealings.
- Put any items you do not wish to sell behind a line of demarcation or simply out of sight.
- Friday Night Preview
- For those of you participating in the Friday preview, that information will be available to buyers on the map.
- The map will be available on our website by Monday, May 9th

Waste Management Clean Up Day
